GEMINI – MAY 22 – JUNE 21 - The third sector of the zodiac, Gemini is all about intelligence and communication. You're born under this sign and have a talent for and love of using your minds and expressing yourself fully. As a Gemini, you are a bower bird, mentally, and take an interest in all sorts of different things. Anything that gets your mind ticking over will grab you. You constantly try to challenge your mental abilities and will make extra efforts to understand anything you put your mind to.

CANCER - JUNE 22 – JULY 23 - The fourth sign of the zodiac, is a water sign, which signifies your highly emotional nature. Being under the sway of the element of water also makes you highly caring, generous and intuitive. You are highly evolved, even spiritual — the water signs are karmically developed and refined in spirit. You will act as a support for many people — in your own family and beyond.
